Dear Dr. Pati and the lovely team at SaJune

Thank you for a warm welcome and a wonderful learning experience during the time I recently spent at the beautiful SaJune clinic!

I want to express my deepest thanks to Dr. Pati for providing so much knowledge and such powerful evidence of the incredible regenerative ability of the body and mind through holistic support. I am excited and inspired by the feedback I heard from patients on their lifechanging and regenerative experiences from following the SaJune model.

Thank you, team SaJune for your willingness to assist with everything related or even unrelated to the preceptorship. I am inspired by each of you through the way in which you deal with patients and colleagues as well as your immense knowledge.

I truly hold dear my experience at SaJune!

I wish you all the best and hope that you will reach many more patients and physicians! I am, for one, tremendously excited about my new journey.

Thank you!

Dr. Annelaine Grobler
